1. Changes in accounting policies required by IFRS : No

2. Changes due to other reasons : No

3. Accounting estimate change : No

(3) Number of outstanding shares at the end of the periods (Common Stock):

1. Number of outstanding shares at the end of the periods (Including treasury shares):

As of December 31, 2017: 1,251,499,501 As of March 31, 2017: 1,251,499,501

2. Number of treasury shares at the end of the periods:

As of December 31, 2017: 527,082 As of March 31, 2017 : 516,753

3. Average number of outstanding shares during the periods:

For the third quarter ended December 31, 2017 (accumulative): 1,250,976,421

For the third quarter ended December 31, 2016 (accumulative): 1,251,012,699

* This summary of consolidated financial results is not subject to quarterly reviews.

* Important Note Concerning the Appropriate Use of Business Forecasts and other

This document contains forward-looking statements based on information available to the company at the time of disclosure and certain assumptions that management believes to be reasonable. Sojitz makes no assurances as to the actual results and/or other outcomes, which may differ substantially from those expressed or implied by forward-looking statements due to various factors including changes in economic conditions in key markets, both in and outside of Japan, and exchange rate movements. The Company will provide timely disclosure of any material changes, events, or other relevant issues.

1. Analysis of Business Results

(1) Overview of the Nine-Month Period Ended December 31, 2017

Economic Environment

In the nine-month period ended December 31, 2017, conditions in the global economy proved firm due to the support of growth in developed countries witnessing increased consumption and in emerging countries in which markets were buoyed by the growth in developed countries. Resource prices were likewise solid amidst bullish demand.

The United States witnessed the continuation of steady economic growth fueled by increases in capital investment and consumer spending. In this environment, an additional hike to the policy interest rate was implemented in December 2017. Furthermore, stock prices reached record highs as a result of strong corporate performance and the ratification of the new tax reform plan. These developments also had a favorable impact on consumption.

Meanwhile, firm export and consumer spending trends contributed to increasingly strong economic recovery in Europe, prompting the European Central Bank to announce plans to scale back quantitative easing measures in October 2017. However, there was a lingering sense of opaqueness in light of factors including negotiations regarding the United Kingdom's withdrawal from the European Union and the deadlock in coalition negotiations among Germany's leading party.

In China, economic conditions proved firm amidst growth in exports and consumer spending, which helped compensate for slowdown in investment in infrastructure, real estate, and other areas. Nonetheless, this country faces an uncertain outlook due to concerns including excessive production facilities and the need to respond to environmental and debt issues.

Despite concerns for possible outflows of capital following the interest rate hike in the United States, Asia experienced overall stable economic growth. Factors contributing to this growth included economic recovery in developed countries, increased exports accompanying economic growth in China, and favorable internal consumption.

In Japan, a fairly high growth rate was posted due to improvements in corporate performance and capital investment levels coupled with high stock prices as well as strong consumer spending resulted from increases in the wages of non-full-time and other employees.

Financial Performance

Sojitz Corporation's consolidated business results for the nine-month period ended December 31, 2017, are presented below.

Net sales (*)	Net sales were up 14.2% year on year, to ¥3,139,354 million, due to increased sales in the Retail & Lifestyle Business Division, a result of higher tobacco transactions volumes; in the Chemicals Division, a result of the benefits of the new acquisition of a European chemical distributor and marketing company and higher plastic resin
---------------	--

transaction volumes; and in the Metals & Coal Division, a result of rises in prices and transactions volumes for coal and other resources.

Gross profit	Gross profit increased ¥26,794 million year on year, to ¥168,870 million. This increase can be attributed to profit growth in the Metals & Coal Division, resulting from higher selling prices for the overseas coal businesses; increased profit in the Automotive Division due to higher automobile sales volumes in overseas automobile wholesale businesses; and a rise in sales in the Chemicals Division.
Operating profit	Operating profit increased ¥12,719 million year on year, to ¥47,089 million, as a result of the higher gross profit.
Profit before tax	Profit before tax increased ¥21,088 million year on year, to ¥60,838 million, following rises in operating profit and in share of profit of investments accounted for using the equity method.
Profit for the period	After deducting income tax expenses of ¥12,212 million from profit before tax of ¥60,838 million, profit for the period amounted to ¥48,625 million, up ¥16,387 million year on year. Profit for the period (attributable to owners of the Company) increased ¥14,687 million year on year, to ¥44,769 million.
Comprehensive income for the period	Comprehensive income for the period increased ¥4,379 million year on year to ¥66,778 million. This outcome was a result of higher profit for the period coupled with boosts from more beneficial foreign currency translation differences for foreign operations. Comprehensive income for the period (attributable to owners of the Company) increased ¥4,195 million year on year to ¥62,653 million.

* Net sales above is based on JGAAP, and represents the total value of the transactions for which the Sojitz Group acts as a principal operator or as an agent.

Results for the nine-month period ended December 31, 2017, are summarized by segment below.

Effective April 1, 2017, the Lifestyle Commodities & Materials Division and the Retail Division were reorganized to form the Retail & Lifestyle Business Division and the Industrial Infrastructure & Urban Development Division. Also effective on this date, the medical and healthcare business operations previously included in the Chemicals Division were transferred to the Infrastructure & Environment Business Division.

Automotive

Net sales (JGAAP) increased 24.4% year on year, to ¥259,123 million, as a result of higher export trading transactions for the Philippines and off-shore transactions and a rise in automobile sales volumes in overseas automobile wholesale businesses. Profit for the period (attributable to owners of the Company) increased ¥3,488 million year on year, to ¥5,994 million, due to higher gross profit and increased share of profit (loss) of investments accounted for using the equity method.

Aerospace & IT Business

Net sales (JGAAP) decreased 12.4% year on year, to ¥369,771 million, as a result of lower aircraft-related transactions. Despite a decline in gross profit, profit for the period (attributable to owners of the Company) of ¥1,074 million was recorded, compared with profit for the period (attributable to owners of the Company) of

¥564 million in the previous equivalent period, when impairment losses on Company-owned ships were recorded.

Infrastructure & Environment Business

Net sales (JGAAP) increased 2.5% year on year, to ¥158,534 million, as a result of a higher volume of industrial machinery transactions. Profit for the period (attributable to owners of the Company) increased ¥3,120 million year on year, to ¥5,587 million, due to earnings contributions from infrastructure-related businesses.

Energy

Net sales (JGAAP) increased 39.0% year on year, to ¥84,333 million, due to a rise in LNG transaction volumes. Loss for the period (attributable to owners of the Company) of ¥2,675 million was recorded, compared with profit for the period (attributable to owners of the Company) of ¥21 million in the nine-month period ended December 31, 2016, as a result of losses related to oil and gas interests.

Metals & Coal

Net sales (JGAAP) increased 30.1% year on year, to ¥410,962 million, as a result of higher prices and transactions volumes for coal and other resources. Profit for the period (attributable to owners of the Company) increased ¥10,442 million, to ¥15,063 million. Factors contributing to this increase include higher gross profit, itself a product of a rise in selling prices in overseas coal operations, and growth in share of profit of investments accounted for using the equity method attributable to steel business and other companies.

Chemicals

Net sales (JGAAP) increased 26.6% year on year, to ¥550,481 million, as a result of the new acquisition of a European chemical distribution and marketing company as well as of higher plastic resin transactions. Profit for the period (attributable to owners of the Company) was up ¥1,316 million year on year, to ¥6,892 million, because gross profit rose on the back of higher methanol prices.

Foods & Agriculture Business

Net sales (JGAAP) increased 10.7%, to ¥250,857 million, following higher grain and feed material transactions. Profit for the period (attributable to owners of the Company) decreased ¥658 million year on year, to ¥4,597 million, due to lower profit in overseas fertilizer businesses.

Retail & Lifestyle Business

Net sales (JGAAP) increased 14.3% year on year, to ¥996,874 million, following a rise in heat-not-burn cigarette transaction volumes. Profit for the period (attributable to owners of the Company) was down ¥2,222 million, to ¥4,322 million. Although higher heat-not-burn cigarette and meat transactions contributed to profit growth, overall profit was down due to the absence of the gain on sales of shopping centers in Japan recorded in the previous equivalent period.

Industrial Infrastructure & Urban Development

Net sales (JGAAP) increased 21.3%, to ¥22,436 million, due to growth in earnings from real estate transactions. Profit for the period (attributable to owners of the Company) was down ¥163 million year on year, to ¥530 million, as a result of a decline in share of profit of investments accounted for using the equity method.

(2) Financial Position

Consolidated Balance Sheet

Total assets on December 31, 2017, stood at ¥2,455,777 million, up ¥317,311 million from March 31, 2017. This increase was mainly attributable to the expansion of tobacco-, real estate- and automobile-related inventories and a rise in other current assets associated with aircraft-related transactions.

Total liabilities at December 31, 2017, amounted to ¥1,820,565 million, up ¥260,070 million from March 31, 2017, following an increase in trade and other payables under current liabilities associated with tobacco transactions and a rise in interest-bearing debt attributable to new borrowings.

Total equity attributable to owners of the Company was ¥601,884 million on December 31, 2017, up ¥51,371 million from March 31, 2017. This was largely due to the accumulation of profit for the period and an increase in other components of equity resulted from stock price and foreign exchange movements.

Sojitz consequently, on December 31, 2017, the current ratio was 164.6%, the long-term debt ratio was 79.1%, and the equity ratio* was 24.5%. Net interest-bearing debt (total interest-bearing debt less cash and cash equivalents and time deposits) totaled ¥773,240 million on December 31, 2017, a ¥162,233 million increase from March 31, 2017. This resulted in the Company's net debt equity ratio* equaling 1.28 times at December 31, 2017.

(*) The equity ratio and net debt equity ratio are calculated based on total equity attributable to owners of the Company.

Under Medium-term Management Plan 2017 the Sojitz Group will continue to advance financial strategies in accordance with the basic policy of maintaining and enhancing the stability of its capital structure. In addition, Sojitz will endeavor to maintain a stable financial foundation by holding sufficient liquidity as a buffer against changes in the economic or financial environment and by keeping the long-term debt ratio at its current level. As one source of long-term funding, Sojitz issued straight bonds in the amount of ¥10 billion in June 2017. Sojitz will continue to closely monitor interest rates and market conditions and will consider additional issues whenever the timing and associated costs prove advantageous.

As supplemental sources of procurement flexibility and precautionary liquidity, Sojitz maintains a ¥100 billion long-term yen commitment line (which remains unused) and long-term commitment line totaling US\$1.9 billion (of which US\$1,010 million has been used).

Consolidated Cash Flows

In the nine-month period ended December 31, 2017, operating activities used net cash flow of ¥62,665 million, investing activities used net cash of ¥90,976 million, and financing activities provided net cash of ¥145,919 million. Sojitz ended the period with cash and cash equivalents of ¥302,962 million, adjusted to reflect foreign currency translation adjustments related to cash and cash equivalents.

(Cash flows from operating activities)

Net cash used in operating activities amounted to ¥62,665 million, compared with net cash provided by operating activities of ¥33,329 million in the previous equivalent period. Major factors increasing cash included profit for the period and dividends received. However, these factors were outweighed by major factors

decreasing cash, such as increase in trade and other receivables in the Chemicals and Automotive Division and an increase in tobacco-related inventories in the Retail & Lifestyle Business Division.

(Cash flows from investing activities)

Net cash used in investing activities totaled ¥90,976 million, up ¥66,355 million year on year. Investment outlays for financing infrastructure and automotive related businesses exceeded inflows from the sale of investments.

(Cash flows from financing activities)

Net cash provided by financing activities amounted to ¥145,919 million, compared with net cash used in financing activities of ¥41,919 million in the previous equivalent period, largely as a result of proceeds from borrowings.

(3) Consolidated Earnings Forecast

In light of changes in the operating environment, the forecasts for full-year financial results for the year ending March 31, 2018 projected in November 2, 2017 was revised as follows.

(Figures in parentheses () represent changes from the consolidated earnings forecast announced on November 2, 2017.)

Net sales (*1) ¥4,200.0 billion (increased ¥100.0 billion (2.4%))

Gross profit (*2) ¥230.0 billion (increased ¥3.0 billion (1.3%))

Operating profit ¥61.0 billion (increased ¥5.0 billion (8.9%))

Profit before tax ¥80.0 billion (increased ¥10.0 billion (14.3%))

Profit for the year (attributable to owners of the Company) ¥56.0 billion yen (increased ¥60.0 billion (12.0%))

(*1) Net sales is based on JGAAP, and includes transactions where Sojitz Group took part as a transaction agent.

(*2) A full-year forecast for gross profit was not previously disclosed. However, we later chose to release a forecast for this item given that it provides valuable information for evaluating the Company's performance using the consolidated financial statements.

In regard to the consolidated earnings forecast for the year ending March 31, 2018, the Company raised its forecast from the previously released figures as detailed above. This revision is meant to reflect higher-than-anticipated resource prices, favorable progress in overseas automobile wholesale businesses in the Automotive Division, and strong performance in the Chemicals Division centered on overseas plastic resin transactions.

Caution regarding Forward-looking Statements

The forecasts appearing above constitute forward-looking statements. They are based on information available to the company at the time of disclosure and certain assumptions that management believes to be reasonable. Sojitz makes no assurances as to the actual results and/or other outcomes, which may differ substantially from those expressed or implied by forward-looking statements due to various factors including changes in economic conditions in key markets, both in and outside of Japan, and exchange rate movements.

The Company will provide timely disclosure of any material changes, events, or other relevant issues.

External revenue	221,394	22,535	1,322,918	30,687	—	1,353,606
Inter-segment revenue	46	306	2,792	237	(3,029)	—
Total revenue	221,441	22,842	1,325,710	30,925	(3,029)	1,353,606
Segment profit (loss)	4,322	530	41,388	139	3,242	44,769

Net sales (Note)						
External	996,874	22,436	3,103,375	35,978	—	3,139,354

Segment profit (loss) is reconciled based on the profit for the period attributable to owners of the Company under the consolidated statements of profit and loss.

Reconciliation of segment profit of 3,242 million yen includes the difference between the Company's actual income tax expenses and income tax expenses allocated to each segment based on the calculation method established internally, which amounted to 3,331 million yen, and unallocated dividend income and others of (89) million yen.

Note: Net sales is calculated based on Japanese generally accepted accounting practices (JGAAP), and represents the total amount of the transactions in which the Group took part as the business operator and those in which the Group took part as an agent.

(Changes in reporting segments)

Effective April 1, 2017, the Lifestyle Commodities & Materials Division and the Retail Division were reorganized to form the Retail & Lifestyle Business Division and the Industrial Infrastructure & Urban Development Division. Also effective on this date, the medical and healthcare business operations previously included in the Chemicals Division were transferred to the Infrastructure & Environment Business Division. These reforms have also resulted in a change in reportable segments. Segment information for the nine-month period ended December 31, 2016, has been restated to reflect the reportable segments after this change.
