

Sojitz's Scope 3 CO2 Emissions by Category

(1) CO2 emissions from logistics

(Units: t-CO2)

FY2014	FY2015	FY2016	FY2017
8,679	7,564	7,009	8,146

※CO2 emissions from domestic cargo shipments with Sojitz Corporation as the designated shipper, based on laws covering the rational use of energy.

(2) CO2 emissions resulting from overseas business trips

(Units: t-CO2)

FY2014	FY2015	FY2016	FY2017
3,694	4,586	4,833	5,480

※Refers to flights to/from Japan taken by Sojitz Corporation employees.

We have divided business trip destinations into six areas and selected a major airport from each area to use in determining distances for the calculation of passenger kilometer data.

※Emission factors used

To calculate emission factors, we use emission units from the "Emissions Unit Values for Accounting of Greenhouse Gas Emissions, etc., by Organizations Throughout the Supply Chain," published by the Ministry of Economy, Trade, and Industry and the Ministry of the Environment.

(3) CO2 emissions resulting from commuting

(Units: t-CO2)

FY2014	FY2015	FY2016	FY2017
463	484	515	519

※Emission factors used

To calculate emission factors, we use emission units from the "Emissions Unit Values for Accounting of Greenhouse Gas Emissions, etc., by Organizations Throughout the Supply Chain," published by the Ministry of Economy, Trade, and Industry and the Ministry of the Environment.
