Eriko Kurosaki is one of the world's top manicurists, both in name and in reality. Her remarkable artistic ability in nail design, not merely in technique but also in her outstanding sense of art, has gained the overwhelming support of people as can be seen from the popularity of 'Eriko Nail'. Rather than being constrained by the boundaries of being a 'manicurist', her excellent creativity attracts attention from other business fields, and she plays an important role in a broad range of activities including jewelry production.

On February 11 at Omotesando Hills, which is the focus of interest, her sixth nail salon 'Createur Reveal Omotesando Hills' was opened, along with the 'Eriko Kurosaki Nail Beauty College Omotesando Hills'.
