Sojitz Corporation

New Graduate Recruiting to be Rescheduled as a Result of the East Japan Earthquake

We would like to express our deepest sympathies to the victims of the East Japan Earthquake. We hope for the earliest possible recovery.

Sojitz Corporation will postpone the nationwide start of recruiting new personnel graduating in 2012 for career track positions by approximately two months. Recruiting was originally planned for April, but considering the extensive damage from the East Japan Earthquake of March 11, it will be postponed.

Sojitz will reschedule the deadline for submitting entry sheets and web aptitude tests and provide notice to students who wish to apply to Sojitz by the end of March on the 2012 Recruiting Website or My Page (<http://www.sojitz.com/saiyo/>).

Recruiting information will be updated as necessary on the 2012 Recruiting Website or My Page.

Sojitz may also reschedule the recruiting of general office personnel and summer-time recruiting of career track personnel. Further details will be posted on the 2012 Recruitment Website as soon as a decision is made.
