Initiative Themes by Division

**Foods & Agriculture Business**

The Foods & Agriculture Business Division will enhance its fertilizer operations in Southeast Asia while also expanding into the surrounding countries and into related fields. At the same time, this division will construct value chains encompassing production, processing, and sales in its food and marine product operations. The aim of these efforts will be increased earnings capacity.

**Retail & Lifestyle Business**

Focuses of the Retail & Lifestyle Business Division will include expanding and diversifying its commercial facility, food distribution, and other retail operations; augmenting trademark portfolios and acquiring new functions in the forest product, textile, and general commodity fields; and developing new businesses in Japan and Asia. Through such tailored portfolio management efforts, this division will evolve and enhance its foundations for generating continuous earnings.

**Industrial Infrastructure & Urban Development**

In Japan, the Industrial Infrastructure & Urban Development Division seeks to boost earnings capacity by developing a business model focused on efficiency and turnover rates through the enhancement of its development functions for condominiums and other properties and by increasing the value of its operations in peripheral fields and in the REIT business. Overseas, the division will take part in industrial park development projects as well as in smart city and other urban infrastructure development projects.
