To Our Shareholders,

I would like to express my deep appreciation for your kind support for Sojitz Corporation. I would also like to express my heartfelt sympathy to those who have been affected by and who are in difficult situations as a result of COVID-19.

The worldwide spread of COVID-19 in 2020 has had an impact on economic activities, and has brought about various effects and changes in our corporate activities. This was the final year of our three-year Medium-Term Management Plan 2020, and performance was unfortunate, with profit for the year falling short of the initial plan. The business environment is rapidly changing. Over the past three years, we have actively implemented initiatives that will lead to the creation of new values, such as the healthcare business including hospital management business in Turkey and Australia, a business alliance with Royal Holdings Co., Ltd., and the creation of various business models through digital transformation (DX).

Sojitz launched its new Medium-Term Management Plan 2023 ~Start of the Next Decade~ in April 2021. Sojitz has positioned its vision for 2030 as a “general trading company that constantly fosters new businesses and human resources,” Under the Medium-Term Management Plan 2023, which is our first step toward the vision, we will pursue value creation through competitiveness and growth potential, and continuously aim for reform.

I always believe that the mission of a general trading company is to deliver goods and services where necessary. It is important to continue to create values such as businesses and human resources that address social issues through business creation from a market-oriented perspective, not only from Japan but also overseas where there are social issues and growth potential.

External environment is changing significantly around the world, as shown in the acceleration of digitalization, heightened awareness toward ESG, and diversification of people’s values and needs. In such environment, rather than providing current functions based on our own perspective, Sojitz will pursue competitive advantage and growth by promoting the following: market-oriented perspective, internal and external co-creation and sharing methodologies inside and outside of Sojitz, and speed. In order to do so, we will implement organizational and personnel reform and achieve sustainable growth in harmony with the society. The Sojitz Group Statement, “The Sojitz Group creates value and prosperity by connecting the world with a spirit of integrity,” will be materialized through these efforts.

With increasing uncertainties in the global situation, it is not an easy task to achieve growth and make transformation. Even in these hard times, we will make an utmost effort to increase our corporate value by steadily implementing the Medium-Term Management Plan 2023 toward achieving our vision for 2030.

We look forward to your continued understanding and support.

May 2021  
Representative Director, President & CEO,  
Masayoshi Fujimoto

What we want to tell our shareholders

We Have Formulated the Medium-Term Management Plan 2023

Sojitz recently announced its vision of becoming a general trading company that constantly fosters new businesses and human resources in 2030. The Company will seek to realize this vision by fulfilling the mission of a general trading company: delivering goods and services where necessary. Pursuing higher levels of competitiveness and growth through an intensely market-oriented perspective, internal and external exchanges and co-creation, and swift action while transforming organizations and human resources as necessary, Sojitz will continue to create value.

Please refer to the section from page 66 for details.

**Corporate Statement :**

**The Sojitz Group creates value and prosperity by connecting the world with a spirit of integrity.**

We have a highly transparent and effective management structure

Sojitz's governance structure from a perspective of an Outside Director

We increased the number of Outside Directors from two to three last year. This year, we propose to add another Outside Director at this General Shareholders' Meeting. Since last year, I, an Outside Director, have served as Chairman of the Board of Directors. As a result of these measures, appropriate advice and suggestions have been made from an objective and diverse standpoint at meetings of the Board of Directors, and I feel the enhancement in the supervisory function of the Board of Directors.

When we formulated the Medium-Term Management Plan 2023 last fiscal year, we, Outside Directors, actively offered proposals and discussed how to incorporate Sojitz's unique features and the components of ESG into the plan. At the Nomination Committee and Remuneration Committee, we discussed the disclosure of skills matrix and the introduction of shareholder value-linked remuneration system for Directors.

We will continue to make every effort to further improve our management transparency and effectiveness and increase our corporate value.

Structure after the Ordinary General Shareholders' Meeting on June 18, 2021 (planned)

We plan to implement a 1-for-5 share consolidation

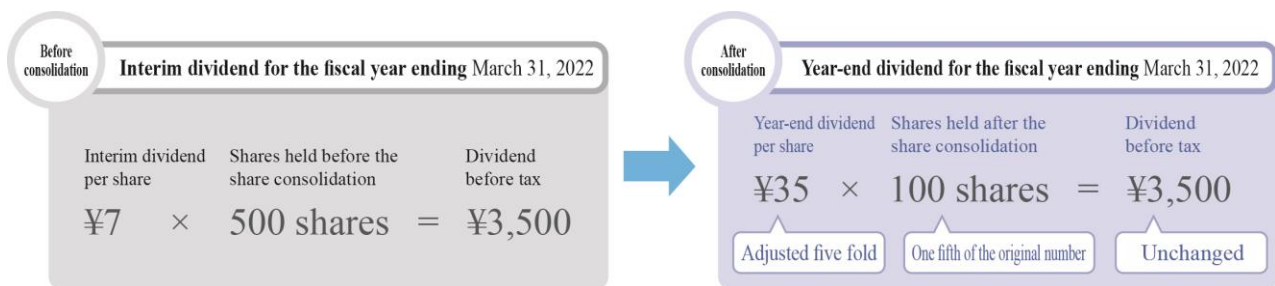

On October 1, 2021, the number of shares held will be reduced to one fifth of the number of shares held on the previous day.\*

\*Subject to approval of Proposal No. 2 at this General Shareholders' Meeting.

Through the share consolidation:

- ◆ Price of one Trading Unit for Sojitz's shares will be in the range between ¥50,000 to ¥500,000 suggested by Tokyo Stock Exchange as desirable range.
- ◆ While the number of shares held by each shareholder will be reduced to one fifth of the number of shares, asset value per share will increase five-fold, and therefore the asset value of the shares held by each shareholder will not change. Share price should also increase five-fold theoretically.
- ◆ For dividends, to avoid variation of economic value of the shares held by each shareholder, dividend per share will be adjusted after this share consolidation becomes effective. There will be no variation of the total amount of dividend to be paid on the grounds of the share consolidation.

<Example> An example of calculation based on dividend forecast for the fiscal year ending March 31, 2022 announced on April 30, 2021 (Interim dividend of ¥7, year-end dividend of ¥7)

<Please note>

- ◆ The share consolidation will make no change to number of shares per unit which will remain at 100. You will have one voting right per 100 shares you hold after the share consolidation.
- ◆ If you have less than 500 shares, your holdings will be shares less than one unit (100 shares) after the share consolidation, and you will lose access to trading at exchange market as well as voting rights at shareholders meeting.
- ◆ For shares less than one unit (100 shares) after the share consolidation, you can eliminate your shares less than one unit by using the system for additional purchase or buyback of shares less than one unit. In this case, as you will need to follow certain procedures for using this system, please contact your securities broker or shareholder register administrator. By using the system for additional purchase or buyback of shares less than one unit prior to the effective date of the share consolidation, you will be able to avoid the enforced disposal of fractional shares. Sojitz will not charge fee for the use of this system.

- ◆ Shareholders with less than five shares at present will lose the status of shareholder after the share consolidation.
- ◆ Fractional shares less than one share after the share consolidation will be collectively disposed by Sojitz, and the proceeds of the disposal will be refunded to the concerned shareholders pro rata. (Shareholders will not need to follow any particular procedure.)

The shares of common stock will be consolidated on the basis of one post-consolidation share per five pre-consolidation shares (the “Share Consolidation”).

The Share Consolidation intends to address the situation that Sojitz’s current share price of ¥331, and its Trading Unit\* ¥33,100 (as of May 14, 2021) is significantly below the desirable Trading Unit range of ¥50,000 to ¥500,000 designated by the Tokyo Stock Exchange’s Securities Listing Regulations.

### 2. Details of the proposal

#### (2) Consolidation rate

One post-consolidation share per five pre-consolidation shares based on the shares owned by the shareholders recorded in the shareholder register as of September 30, 2021.

#### (3) Effective date

October 1, 2021

#### (4) Total number of authorized shares on the effective date

500,000,000 shares

The provisions of the Articles of Incorporation of Sojitz regarding the total number of authorized shares is deemed to have been amended as follows as of the effective date of the Share Consolidation in accordance with Article 182, Paragraph 2 of the Companies Act.

(Underlining indicates amended text.)

Current Articles of Incorporation	After Amendment
<p>Article 6. (Total Number of Authorized Shares)</p> <p>The total number of shares authorized to be issued by the Company shall be <u>2,500,000,000</u> shares of common stock.</p>	<p>Article 6. ### 3. Cases of fractions of less than one share

In the event the Share Consolidation generates fractions of shares less than one share, the fractions shall be collectively disposed in accordance with Japan's Companies Act, and the shareholders who own fractions of less than one share shall be paid for the disposition value in proportion to the amount of the fractions.

### Proposal No. 3: Election of Eight (8) Directors

The Board of Directors of Sojitz currently consists of seven (7) Directors including three (3) Outside Directors, all of whose terms terminate as of the conclusion of this General Shareholders' Meeting. Accordingly, Sojitz hereby proposes the election of eight (8) Directors including four (4) Outside Directors, increasing the number of Outside Directors by one (1) to ensure management transparency and further strengthen corporate governance.

The Candidates for Directors are as follows. Prior to the selection of the candidates, the Nomination Committee, an advisory body of the Board of Directors of Sojitz, deliberated and decided on the nomination.

Each of the four (4) Outside Director candidates meets the requirements for Independent Director set forth in the listing rules of the Tokyo Stock Exchange, on which Sojitz is listed, and they will be registered as Independent Directors if their election is resolved.

**Proposal No. 5: Renewal and Partial Amendments of a System of Performance-Linked Share Remuneration for Directors, etc.**

1. Reasons for the proposal and rationale for remuneration, etc.

At the 15th Ordinary General Shareholders' Meeting held on June 19, 2018, Sojitz obtained its shareholders' approval for the introduction of a system of performance-linked share remuneration (the "System") for Sojitz's Directors and Executive Officers (excluding Outside Directors and non-residents in Japan; "Directors"), which has remained in place to date.

Following the latest formulation of the "Medium-Term Management Plan 2023," with a view to achieving the targets set under the Plan, while further motivating Directors to contribute to improving the Sojitz Group's performance and increasing its corporate value over the medium-to-long term, Sojitz will amend the System by defining remuneration based on the System to be composed of the "performance-linked portion," making reviews to the evaluation criteria and the variable factors of remuneration, and making necessary changes for the renewal of the System.

Under Sojitz's basic view on remuneration for Directors, the remuneration system shall serve as an incentive to powerfully drive sustainable growth and increase its corporate value over the medium-to-long term, with a view to creating and providing the two types of value upheld by Sojitz, namely value for Sojitz and value for society, and it shall also solidly promote the vision of "a general trading company that constantly fosters new businesses and human resources" to be materialized in 2030. Accordingly, the Executive Remuneration Policy (policy for determining details of remuneration, etc. for individual Directors of Sojitz) was resolved at the Board of Directors meeting held in April 2021. The outline of this policy is provided at the end of this proposal, and no change is scheduled to be made following the approval of this proposal.

This proposal reasonably complies with the aforementioned policy for the payment of remuneration, etc., to individual Directors, and thus is believed to be appropriate.

When this proposal is approved, no change is intended to be made to the amount of remuneration, etc. for Directors (maximum of ¥550 million per year, excluding the salary as for being employees), as resolved at the 4th Ordinary General Shareholders' Meeting held on June 27, 2007.

Four (4) Directors shall be applicable under the System at the conclusion of this General Shareholders' Meeting, if Proposal No. 3 (Election of Eight (8) Directors) is approved as originally proposed. Since the System shall also apply to Executive Officers, at the conclusion of this General Shareholders' Meeting, 19 Executive Officers not concurrently serving as Directors shall be covered under the System. Remuneration based on the System includes

remuneration for Executive Officers, and since the System handles the share remuneration for Directors together with that for Executive Officers, this proposal is made for the total remuneration based on the System setting out its amount and the upper limit of the number of shares, among others.

For the purpose of ensuring transparency and objectivity in the remuneration-determining process, Sojitz has set up the Remuneration Committee as a voluntary advisory body to the Board of Directors. The Committee is chaired by an Outside Director and the majority of its members are Outside Directors. This proposal was resolved by the Board of Directors after deliberations at the Remuneration Committee.

## 2. Upper limits of the amount of remuneration, etc. and the number of shares under the System

### (1) Renewal of the System

The System shall apply to the three fiscal years covered by the Medium-Term Management Plan (the “Applicable Period”). Upon the expiry of the initial three fiscal years applicable under the System (from the fiscal year ended March 31, 2019 to the fiscal year ended March 31, 2021), the System shall be renewed for a new valuation period of three fiscal years covered by the Medium-Term Management Plan. The Applicable Period immediately following the renewal of the System shall be the three fiscal years covered by the Medium-Term Management Plan 2023 (from the fiscal year ending March 31, 2022 to the fiscal year ending March 31, 2024).

In renewing the System, Sojitz intends to make partial amendments to the current System. The System after such amendments is as follows.

### (2) Outline of the System after amendments

The System provides share remuneration to Directors by delivery and grant (“Delivery”) of Sojitz shares and cash equivalent to the conversion amount of Sojitz shares (the “Sojitz Shares”) as well as dividends on the Sojitz shares, which are determined based on the level of achievement of targets, etc. upheld in the Medium-Term Management Plan, through the trust created by Sojitz (the “Trust”). (For further details, please refer to (3) below as well as subsequent paragraphs.)

1) Persons eligible for Delivery of the Sojitz Shares in this proposal	<ul style="list-style-type: none"> <li>• Directors and Executive Officers (excluding Outside Directors and non-residents in Japan)</li> </ul>
2) Upper limit of trust fund contributed by Sojitz	<ul style="list-style-type: none"> <li>• ¥1.8 billion in total for three fiscal years</li> </ul>
3) Upper limit of the number of Sojitz Shares subject to Delivery to Directors, and the acquisition method thereof	<ul style="list-style-type: none"> <li>• Upper limit of the Share Delivery Points (as defined in (4) below) to be granted to Directors for three fiscal years during the trust period shall be 6 million points (equivalent to 6 million shares).</li> <li>• Accounts for approximately 0.5% of the total number of Sojitz Shares issued (as of March 31, 2021, after deduction of treasury stock).</li> <li>• The Sojitz Shares shall be acquired from Sojitz (through disposal of its treasury stock) or from the stock market.</li> </ul>
4) Details of the performance conditions to be achieved	<ul style="list-style-type: none"> <li>• Variable in accordance with the level of achievement of targets upheld in the Medium-Term Management Plan in the Applicable Period.</li> <li>• In the Applicable Period up to the fiscal year ending March 31, 2024, conditions shall be variable within a range between 60% and 200% in accordance with the level of achievement of targets, comprising accumulated consolidated net profit, Sojitz share growth rate, and ESG-related criteria (including decarbonization, efforts on social problems, empowering women in the workplace, encouraging employees to take childcare leave, improvement in the results (main items) of employee surveys, enhancement of corporate governance).</li> <li>• As for the Applicable Period beginning after the fiscal year ending March 31, 2025, conditions shall be separately decided at the Board of Directors.</li> </ul>
5) Timing of Delivery of the Sojitz Shares to Directors	<ul style="list-style-type: none"> <li>• After retirement</li> </ul>
6) Other	<ul style="list-style-type: none"> <li>• If a resolution is passed by the Board of Directors for a post-closing correction of accounts due to serious accounting errors or fraud, or a wrongdoing by Directors is confirmed by the Board of Directors, or Directors retired for personal reasons against Sojitz's intention, or changed job to an industry peer without approval of Sojitz, Sojitz may wholly or partially withhold Delivery of the Sojitz Shares, or may request return of all or part of the Sojitz Shares for which Delivery has already been made, or the cash equivalent thereto.</li> </ul>

(3) Upper limit of cash contributed by Sojitz

During the Applicable Period of the System, Sojitz shall contribute a trust fund amount not exceeding ¥1.8 billion for each Applicable Period as remuneration for Directors, thereby creating the Trust with a trust period equivalent to the Applicable Period, for Directors who meet the beneficiary requirements as beneficiaries. The Trust shall acquire Sojitz shares from Sojitz (through disposal of its own shares) or the stock market using the trust fund under direction of the trust administrator.

During the trust period, Sojitz shall grant points (as described in (4) below) to Directors, and after the retirement of Directors, the Trust shall make Delivery of the Sojitz Shares to Directors who meet certain beneficiary requirements (as described in (5) below).

Upon expiry of the trust period of the Trust, the Trust may be continued by amending the trust agreement and making additional contributions to the Trust. In such case, the trust period of the Trust shall be extended for three years, and Sojitz shall, for each such extended trust period, make additional contributions, not exceeding the upper limit of the trust fund as resolved by this General Shareholders' Meeting, thereby continuing to grant Directors points during the extended trust period. In the event of such additional contribution to the trust, however, if there remain in the trust property Sojitz Shares (excluding Sojitz Shares corresponding to the number of the Share Delivery Points granted to Directors for which Delivery has not been made) as well as cash (hereinafter referred to as "Residual Shares" collectively) as of the final day of the trust period before extension, the combined amount of Residual Shares and the amount of the trust fund additionally contributed shall not exceed the upper limit of the trust fund as resolved by this General Shareholders' Meeting. This extension of the trust period is not limited to once, and the Trust may be renewed likewise thereafter.

In the event that the Trust is terminated, if, upon expiry of the trust period, (in the case where the Trust has been continued, upon expiry of the extended trust period), Directors who may meet the beneficiary requirements remain in service, the Trust must not be terminated immediately, and the trust period of the Trust shall be extended for a period not exceeding 10 years, until such time as the Directors retire and Delivery of the Sojitz Shares is completed. However, in such case, no points shall be newly granted to Directors.

(4) Upper limit of the number of Sojitz Shares subject to Delivery to Directors

In June each year, Directors shall be granted basic points commensurate with their individual rank. After the expiry of the Applicable Period, the number of Sojitz Shares subject to Delivery to Directors shall be determined, based on the number of points (the “Share Delivery Points”) that shall be calculated by multiplying the number of basic points accumulated during the Applicable Period (the “Accumulated Points”) by the performance-linked factor based on the achievement level of the evaluation criteria\*<sup>1</sup>. For Directors who retired (or died) or became a non-resident of Japan during the Applicable Period, the Accumulated Points at that point in time shall be deemed as the Share Delivery Points. The performance-linked factor is designed to vary within a range between 60% and 200%, where 100% is given when performance targets are achieved.

The number of Share Delivery Points to be granted to Directors during the trust period of the Trust shall not exceed 6 million points for each series of three fiscal years (equivalent to 6 million shares). Such maximum number of points has been decided, in consideration of the upper limit of the trust fund described in (3) above, along with factors such as the latest share price. Upper limit of the total number of Share Delivery Points accounts for approximately 0.5% of the total number of Sojitz shares issued (as of March 31, 2021, after deduction of treasury stock).

The number of the Sojitz Shares subject to Delivery to Directors shall be determined commensurate with the accumulated number of Share Delivery Points granted during their term of office (“Accumulated Share Delivery Points”), at the rate of one Sojitz share per one point. In the event of an increase or decrease in the number of Sojitz shares held in the Trust due to share split, gratis allotment of shares or share consolidation, Sojitz shall adjust the number of the Sojitz Shares subject to Delivery for each point, depending on the rate of such increase or decrease.\*<sup>2</sup>

\*<sup>1</sup> In the Applicable Period up to the fiscal year ending March 31, 2024, evaluation criteria shall be comprised of accumulated consolidated net profit, Sojitz share growth rate, and ESG-related criteria (including decarbonization, efforts on social problems, empowering women in the workplace, encouraging employees to take childcare leave, improvement in the results (main items) of employee surveys, enhancement of corporate governance). Evaluation criteria for the fiscal year ending March 31, 2025 and onwards shall be separately decided at the Board of Directors.

\*<sup>2</sup> If Proposal No. 2 (Consolidation of Shares) is approved, one point will be equivalent to 0.2 Sojitz shares after the share consolidation to become effective on October 1, 2021.

(5) Method and timing of Delivery of the Sojitz Shares to Directors and other share delivery conditions

Directors who meet the beneficiary requirements shall, after their retirement (excluding retirement due to deaths), receive delivery of the number of the Sojitz shares equivalent to 70% of the Accumulated Share Delivery Points as calculated in accordance with (4) above (with any fractional share being rounded down), while receiving the amount of cash equivalent to the conversion amount of the Sojitz shares equivalent to the rest of the converted Accumulated Share Delivery Points.

In the event of death of a Director who meets the beneficiary requirements during the trust period, the number of Sojitz shares equivalent to his/her Accumulated Share Delivery Points at the time of death, shall all be converted into cash within the Trust, and the amount of cash equivalent to the conversion amount shall be granted to the heir of such Director from the Trust.

Even in the case of Directors who meet the beneficiary requirements, if a resolution is passed by the Board of Directors for a post-closing correction of accounts due to serious accounting errors or fraud, or a wrongdoing by Directors is confirmed by the Board of Directors, Sojitz may wholly or partially withhold Delivery of the Sojitz Shares, or may request return of all or part of the Sojitz Shares for which Delivery has been already made, or the cash equivalent thereto.

(Beneficiary requirements)

- Remaining in service as Directors during the Applicable Period (including those becoming Directors after the inception of the System)
- Having retired from the office of Director
- Resident in Japan
- Not having retired voluntarily from the office of Director due to personal reasons against Sojitz's intention (excluding voluntary retirement due to unavoidable circumstances such as injury or sickness), nor having committed certain wrongful conduct while in office
- Other requirements considered necessary for achieving the purposes intended for the System

(6) Exercise of voting rights of Sojitz shares held in the Trust

The voting rights for Sojitz shares held in the Trust (prior to Delivery of Sojitz shares to Directors) shall not be exercised during the trust period, to ensure neutrality of the Trust with no influence on the management of Sojitz.

(7) Treatment of the dividends on Sojitz shares held in the Trust

Dividends paid on Sojitz shares held in the Trust, shall, after being received by the Trust, be used for paying the trust fee and the trust expenses and retained within the Trust at an amount equivalent to the amount of dividend per share for the points held by Directors as of the date of record for dividends, while being granted to Directors along with the Sojitz Shares subject to Delivery, under (5) above.

- \* If Proposal No. 2 (Consolidation of Shares) is approved, one point will be equivalent to 0.2 Sojitz shares after the share consolidation to become effective on October 1, 2021.

(8) Other details of the System

Other details of the System shall be decided by the Board of Directors at the time of the establishment of the Trust, the amendment to the trust agreement, and the additional contribution to the Trust.

## ● Background of the review of the remuneration system for Directors

In 2018, Sojitz introduced remuneration systems including the performance-linked share remuneration system for the current Directors as an executive remuneration closely linked to Sojitz's business performance and as a system to ensure transparency and objectivity for the purpose of encouraging contributions to the improvement in Sojitz's performance and corporate value over the medium-to-long term.

We recognize that Sojitz must address the following issues surrounding the current remuneration system, which were identified in the course of the discussions regarding the desirable form of executive remuneration system for Sojitz, primarily at the Remuneration Committee, prior to the expiry of the three fiscal years covered by the current share remuneration system, as well as the formulation of the new Medium-Term Management Plan.

- 1) The proportion of basic remuneration is excessively high, and the linkage between remuneration and performance is inadequate.
- 2) "Consolidated net profit for a single fiscal year" is the only evaluation criteria, leaving the system unable to adequately reflect the initiative for and the progress in the improvement of corporate value over the medium-to-long term.

Based on the awareness of these issues, we have been engaged in numerous deliberations for over a year primarily at the Remuneration Committee, regarding the review of the executive remuneration system with a view to further improving Sojitz's corporate value over the medium-to-long term, which led to the formulation of the Executive Remuneration Policy on Remuneration Policy, and then subsequently to the amendment to the current remuneration system in general.

## ● Details of the remuneration system

[Directors and Executive Officers (excluding Outside Directors)]

Sojitz remuneration consists primarily of basic remuneration and performance-linked remuneration. Medium-to-long term performance-linked remuneration adopts a "pay for mission" approach, which takes into consideration factors such as the fulfillment of corporate philosophy and the creation and provision of the two types of value.

With respect to the remuneration mix, the proportion of basic remuneration shall be lowered from the current level of 77% uniformly applied to all, to the range between 54% and 66% depending on individual job responsibilities, while the proportion of performance-linked remuneration shall be

increased.

[Outside Directors]

Remuneration consists wholly of basic remuneration, while special allowance shall be paid separately to the Chairman of the Board of Directors, and the chairs of the Nomination Committee and the Remuneration Committee.

Governance over remuneration	Amount of remuneration of each of the Officers shall be determined by the Board of Directors, after deliberations at the Remuneration Committee chaired by an Outside Director, with the majority of committee members being Outside Directors.						

[Illustrated description of remuneration for the Representative Director, President and CEO of Sojitz]

- Total amount of remuneration is variable within a range between approximately 65% and 130%, where 100% is given based on the achievement rate of each criteria related to performance.

- Of the performance-linked remuneration, “medium-to-long term” remuneration is the amount equivalent to the granting of Share Delivery Points by the BIP trust.

### **Proposal No. 6: Revision of Remuneration for Outside Directors**

At the 4th Ordinary General Shareholders' Meeting held on June 27, 2007, the maximum aggregate amount of remuneration for Outside Directors of Sojitz was approved to be ¥50 million per year, which has remained as such to date.

With a view to strengthening its corporate governance, Sojitz increased the number of Outside Directors by one in the previous fiscal year, while there will be another increase by one subject to the approval of Proposal No. 3 "Election of Eight (8) Directors" at this Ordinary General Shareholders' Meeting. Therefore, Sojitz hereby proposes to revise the maximum aggregate amount of remuneration for Outside Directors, from ¥50 million per year to ¥100 million per year.

The Board of Directors has resolved to submit a proposal to revise the amount of remuneration for Outside Directors after consulting the Remuneration Committee, which is chaired by an Independent Outside Director. Under Sojitz remuneration policy, remuneration for Outside Directors Remuneration consists of fixed remuneration and special allowance for the Chairman of the Board of Directors and the chairs of the Nomination Committee and the Remuneration Committee according to their job responsibilities, and Sojitz believes that the maximum aggregate amount of remuneration for Outside Directors as proposed above is appropriate in consideration of the purpose of the revision and industry peer levels.

The current number of Outside Directors is three (3), and after the approval of Proposal No. 3 "Election of Eight (8) Directors" as proposed, the number of Outside Directors will be four (4).

**1. Basic Concept**

We strive to improve our corporate value over the medium-to-long term based on the “Sojitz Group Statement”—The Sojitz Group creates value and prosperity by connecting the world with a spirit of integrity.

In order to materialize this, based on our belief that the enhancement of our corporate governance is an important issue of management, we have built the following corporate governance structure in our effort to establish a highly sound, transparent and effective management structure, while also working toward the fulfillment of our management responsibilities and accountability to our shareholders and other stakeholders.

Corporate Governance Framework (April 1, 2021 onward)

**1) Management and Business Execution System**

We employ an executive officer system for the purpose of, clarifying authority and responsibilities, and ensuring a smooth and swift execution of business through the separation of managerial decision-making from business execution. The Board of Directors is the highest decision-making body reviewing and resolving fundamental policies and most important cases concerning the management of the Group. The Board of Directors also supervises business execution through proposals of important matters and regular reports from the executing body. As the executing body, we have established the Management Committee, chaired by the President, who is also the Chief Executive Officer. The Committee is responsible for the review and approval of the Group’s important managerial and executive agendas, from a group-wide and medium-to-long-term viewpoint. In addition, we have established the Finance & Investment Deliberation

Council for the review and approval of investments and loans, the Human Resource Deliberation Council for the review and approval of major human resource matters, and internal committees to handle issues to be addressed from cross-organizational perspectives, as executing bodies all directly reporting to the President & CEO.

The term of Directors and Executive Officers is set to one year, in order to respond swiftly and appropriately to rapid changes in the business environment and clarify their responsibilities to management.

## **2) Monitoring and Supervisory Functions for Management**

We appoint multiple Outside Directors for the purpose of receiving appropriate advice and proposals on management of the Group from an outside, objective standpoint and to reinforce the supervisory function of the Board of Directors. In addition, we ensure appropriateness and transparency with regard to the appointment of Directors and remuneration by having Outside Directors serve as the chair of the Nomination Committee and the Remuneration Committee, both advisory bodies to the Board of Directors. We are a company with an Audit & Supervisory Board, which independently monitors and supervises the operations of the Group.

## **2. Company Institutions**

### **1) Board of Directors**

As the highest decision-making body, the Board of Directors reviews and resolves fundamental policies and most important cases concerning the Group's management, and also supervises business execution through proposals of important matters and regular reports from the executing body. The Outside Directors supervise the Executive Directors and overall system of business execution. They also provide opinions and advice on the corporate governance.

- **Policy for Appointing Directors and Composition of the Board of Directors**

- Matters Deliberated by the Board of Directors

The Board of Directors reviews and resolves fundamental matters concerning management among the Group, involving management policy, business plans and important personnel, organizational and system related matters based on the internal rules of the Board of Directors in addition to laws, regulation and the Articles of Incorporation. It also reviews and resolves the important matters related business execution such as important investments and loans.

As for business execution other than these matters resolved by the Board of Directors, the President, the Chief Executive Officer, or the executing bodies reporting to the President & CEO; the Management Committee, the Finance & Investment Deliberation Council and the Human Resource Deliberation Council etc. review and approve matters depending on the contents, scale, importance and risks of each matter.

- Support System for Directors

The Board Meeting Operation Office was established as an organization comprised of three full-time staff (as of March 31, 2021) who support the Directors by reporting to, providing information to, and communicating with Directors in a timely and appropriate manner.

- Analysis/assessment of effectiveness of the Board of Directors

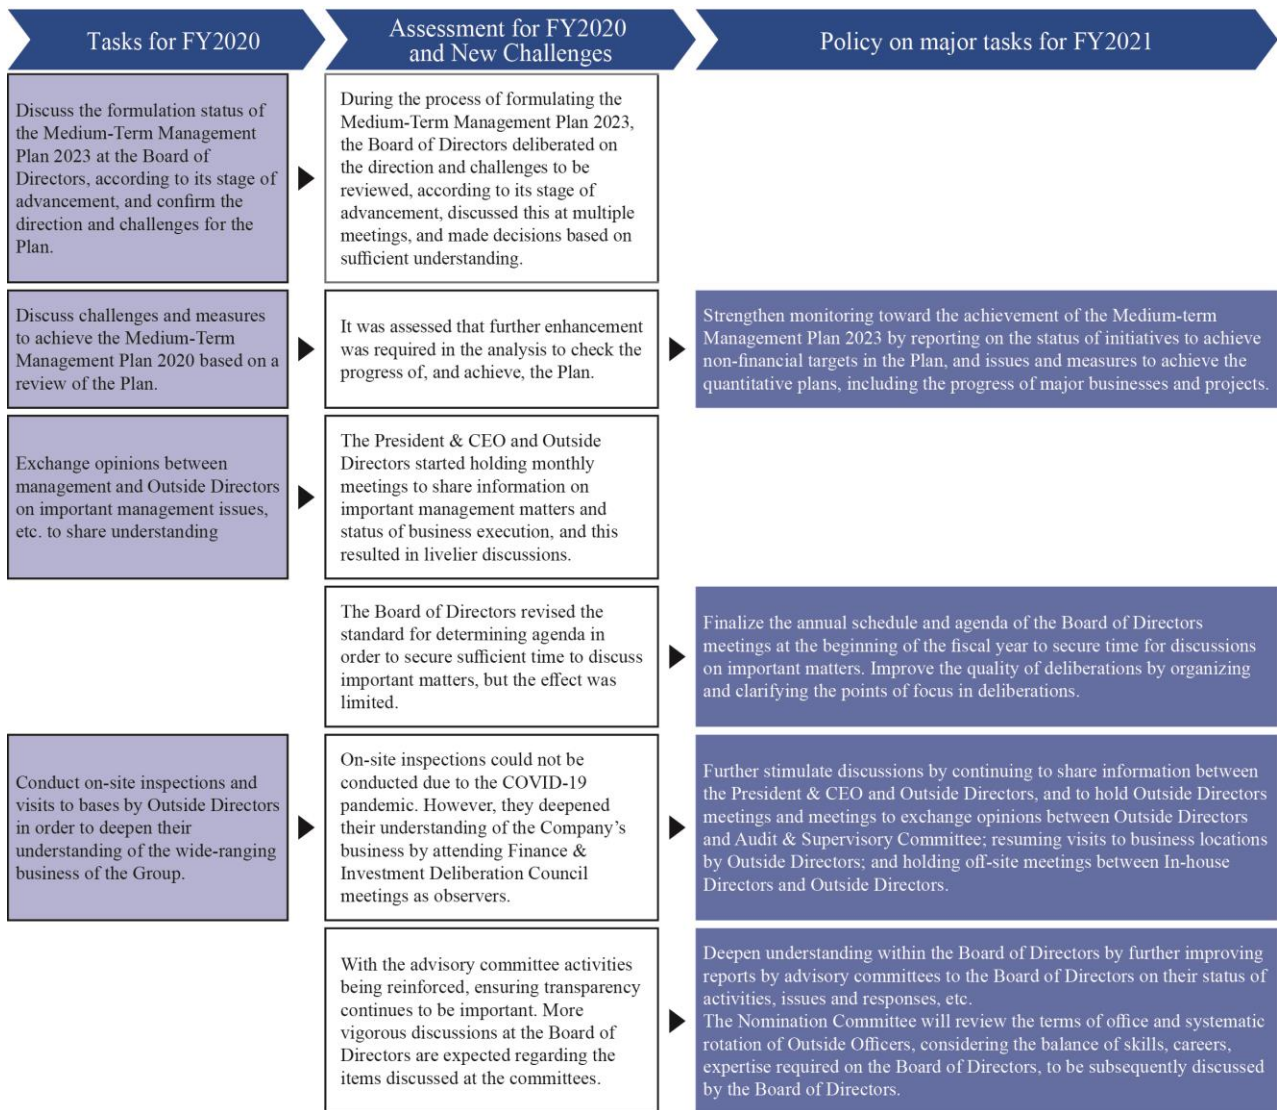

Each year, we analyze and assess the effectiveness of the Board of Directors as a whole in order to improve its functions.

The analysis and assessment method and their results for the FY2020, and the tasks ahead are as follows.

Analysis and Assessment Method	<ol style="list-style-type: none"> <li>1. The Board of Directors discussed how to proceed with the assessment of the effectiveness of the Board of Directors for the FY2020.</li> <li>2. A written survey and an individual interview were conducted for all Directors and Audit &amp; Supervisory Board Members. The results of this survey were then assessed by a third party (an outside consultant).</li> <li>3. The analysis and assessment outcome based on the results of the third-party assessment and individual interviews was reported to the Board of Directors for a discussion on tasks to be addressed.</li> </ol>
Survey Items	<ol style="list-style-type: none"> <li>1. Roles and responsibilities of the Board of Directors</li> <li>2. Composition of the Board of Directors</li> <li>3. Management of the Board of Directors</li> <li>4. Decision-making process of the Board of Directors</li> <li>5. Supervision by the Board of Directors</li> <li>6. Items concerning Outside Directors</li> <li>9. Suggestions for improving effectiveness, etc.</li> </ol>
Outline of Assessment Results	The aggregated survey results showed that the overall average score exceeded the standard, and the third-party assessment was favorable as detailed below. It is therefore confirmed that the Board of Directors is functioning appropriately and effectively as described below.
Excerpts from Third-Party	- Effectiveness of the Board of Directors has remained at high standards as in the previous fiscal year, due to adequate steering by the Chairman of the Board of Directors assumed by an Outside Director in the fiscal year ended March 31, 2021,

<p>Assessment Observations</p>	<p>substantial opportunities ensured for presenting information to the Board of Directors, enhanced board diversity through the appointment of an additional Outside Director.</p> <ul style="list-style-type: none"><li>- As for the reinvigoration of debate on medium- to long-term management plan, certain progress was registered as verified by an opinion that there were effective discussions on management strategies at offsite meetings and that substantial opportunities were ensured for Outside Directors to receive briefings prior to the board meetings. There was another opinion, on the other hand, saying that there was room for improvement in making analysis on the progress in the plans as well as how to achieve them.</li><li>- The Board of Directors now consists, following the additional appointment of one Outside Director, of four In-house Directors and three Outside Directors amounting to seven members, with greater representation by Outside Directors, thus enhanced diversity. Endorsement was given to a view that diversity should further be enhanced and that the Board of Directors should continuously debate on what sort of skills should be required for the future growth over medium- to long-term.</li><li>- As the Nomination Committee and the Remuneration Committee are strengthening their activities, it is important to continue to ensure transparency in these committees.</li></ul>

We will continue to make necessary reviews and upgrade our corporate structure to build a system that contributes to increasing our corporate value.

#### 4. Corporate Audits, Accounting Audits and Internal Audits

Audit & Supervisory Board Members, the Accounting Auditor and the Internal Audit Department boost the effectiveness of their respective audits by exchanging information to ensure their efforts are complementary and efficient.

##### 1) Audits by Audit & Supervisory Board Members

Pursuant to the Corporate Audit Standards established by the Audit & Supervisory Board, Audit & Supervisory Board Members attend important meetings such as those of the Board of Directors, Management Committee and Finance & Investment Deliberation Council. In addition, based on audit plans and task assignments, Audit & Supervisory Board Members oversee and audit the operations of Sojitz Group by performing audits using means such as interviewing Directors and other members of senior management regarding business execution, reviewing important documents relevant to major business decisions, and checking business reports from subsidiaries.

Audit & Supervisory Board Members receive explanations about audit plans and regular audit reports from the Accounting Auditor, which they use to conduct effective audits and monitor the independence of the Accounting Auditor. They also receive audit plans and reports on the status of audits from the Internal Audit Department, and submit opinion statements on audit results. Sojitz has thus established a system for ascertaining the status in a timely and appropriate fashion, based on cooperation with the Accounting Auditor and the Internal Audit Department.

In FY2020, we conducted audits while having sufficient communication with domestic and overseas subsidiaries amid the COVID-19 pandemic by establishing a system to conduct remote audits using web conferencing systems.

##### 2) Accounting Audits

Sojitz has appointed the independent auditing firm KPMG AZSA LLC to conduct accounting audits in accordance with the Companies Act, as well as audits of financial statements, quarterly reviews and

internal control audits in accordance with the Financial Instruments and Exchange Act. Their executive officers and assistant staff involved in audits for Sojitz in the fiscal year ended March 31, 2021, are as follows. Details on their years of service are omitted, as all of the certified public accountants (CPAs) who audited Sojitz have served for less than seven years.

(Designated Limited Liability Partners, Engagement Partners)

Ryoji Fujii, Ryohei Tomita, Daisuke Yamada

(Assistant staff working for our accounting audit)

18 CPAs and 23 assistant CPAs

### **3) Internal Audits**

Based on an audit plan adopted by the Board of Directors and under the supervision of the Internal Audit Committee, the Internal Audit Department (comprising 30 people as of March 31, 2021) conducts audits covering the business divisions, corporate departments, and consolidated subsidiaries as follows.

- During the audit, the Department investigates whether organizational governance, risk management, and internal controls are functioning appropriately and makes proposals for effective improvements to prevent loss and resolve issues.
- After the audit is completed, the Department submits an audit report to the Internal Audit Committee and the Audit & Supervisory Board Members after exchanging opinions at an audit review meeting for the audited organizations and the concerned parties (COOs of divisions with primary responsibility, COOs responsible for corporate departments and Audit & Supervisory Board Members). In addition, the Department holds an audit report meeting to provide an explanation to the Internal Audit Committee every month.
- To address the problems identified in the audits, the Internal Audit Department receives reports about improvements by the audited organizations for the three- and six-month periods after the audits, and conducts a follow-up audit to check their progress.

## **5. Holdings of Listed Shares**

### **1) Policies for reducing shareholdings under Medium-Term Management Plan 2023**

Under the Medium-Term Management Plan 2023, Sojitz will further accelerate the reduction of shares held as part of our shareholding policy to achieve a 50% reduction by the end of March 2024. In the current market situation with more attention than ever on cross-shareholdings, we have decided to proceed further with reducing listed shares held as part of our shareholding policy in an effort to raise capital efficiency.

### **2) Policies for share holdings**

Each year, we conduct a quantitative assessment of each lot of listed shares held as cross-shareholdings as part of our shareholding policy to ensure that dividends or related profit earned from those shares exceeds the shares' equity cost (WACC). We also conduct a qualitative assessment, looking at whether the shares help improve our corporate value. Based on these assessments, we examine the value of retaining these shares. We retain those that are deemed to be worthwhile, seeking ways to achieve greater impact and benefit from those shares. Meanwhile, for those shares which are deemed to now lack significant value, we set a deadline to improve their value, or, if there is no indication these shares will improve, we examine the possibility of divestiture. The Board of Directors and the Management Committee conducts this assessment for each lot of shares held as cross-shareholdings.

### 3) Exercise of voting rights

Based on the significance of holding shares of listed companies, we exercise our voting rights based on whether or not they contribute to sustainable growth and improved corporate value over the medium-to-long term for both Sojitz and the investment target. We also have a system of monitoring the status of exercise of voting rights.

### 6. Dialogue with Shareholders

Sojitz maintains a basic policy of engaging in constructive dialogue with shareholders. Sojitz continues to provide shareholders with appropriate and timely information on management policy and initiatives to achieve sustained growth and increase corporate value over the medium-to-long term. Shareholders' opinions are then reported to the upper management and reflected in management decisions.

To ensure fair and appropriate disclosure of information to its stakeholders, including shareholders and investors, in accordance with the Fair Disclosure Rule, Sojitz has established and observed a set of internal regulations including the "Regulations to Prevent Insider Trading" and the "Information Disclosure Regulations" that stipulate fundamental policies for compliance with laws and regulations, transparency, timeliness, fairness, consistency and confidentiality, and ensure strict compliance by executive officers and employees.

- Providing information to shareholders

Sojitz's basic policy is to communicate information fairly and equally to all shareholders. Information regarding the Medium-Term Management Plan and financial results is publicized via TDnet or the Sojitz website immediately after resolution by the Board of Directors. In addition, to promote the understanding of its management philosophy, vision, business activities and business models, Sojitz has engaged in active disclosure of information amid the continuing impact of COVID-19, such as publishing Integrated Reports, holding online briefings for individual shareholders and business activities briefings, and distributing videos on the Sojitz website featuring the President & CEO's visit to Sojitz's operating companies.

- Initiatives with regard to the Ordinary General Shareholders' Meeting

The Notice of Ordinary General Shareholders' Meeting is posted on our website in Japanese and English around four weeks prior to the Ordinary General Shareholders' Meeting and is sent out by mail around three weeks prior to the meeting. In addition, the Notice of Ordinary General Shareholders' Meeting has become compatible with smartphones and tablets as well. Sojitz is also engaged in promoting dialogue with shareholders, while effectively preventing the spread of COVID-19 at the Ordinary General Shareholders' Meeting, through active measures including holding the Ordinary General Shareholders' Meeting at a different time from most other companies in Japan, using Internet voting system, participating in Electronic Voting Platform, which can be utilized by institutional investors in Japan and overseas, accepting questions in advance, distributing business briefing videos to shareholders in advance, and livestreaming of the Ordinary General Shareholders' Meeting.

- Systems and initiatives for dialogue with shareholders

Sojitz has established a system where Directors play an active role in dialogue with shareholders, with support from the Investor Relations Office as a dedicated body for this purpose.

## Business Report

(From April 1, 2020 to March 31, 2021)

### **1. Current circumstances of Sojitz Group**

#### **(1) Business activities**

Sojitz Group is engaged in a wide range of businesses on a global basis as a general trading company. Our main businesses are trading, import, and export of products, domestic and overseas manufacture and sale of a diverse array of products, provision of services in Japan and overseas, planning and organizing of various projects, investment in diversified business areas, and financial activities.

#### **(2) Review of progress and performance in operations**

In the year ended March 31, 2021, the global economy experienced a substantial slowdown due to the global COVID-19 pandemic and the impacts of measures for fighting the pandemic, such as the lockdowns, travel restrictions, and stay-at-home requests instituted in numerous countries. Governments around the world implemented fiscal and financial measures, resulting in a recovery trend that emerged around the summer. However, the later emergence of variant COVID-19 viruses caused case numbers to resume increasing. Currently, there is a sense of anticipation regarding the vaccination of populations centered on developed countries. Regardless, the COVID-19 pandemic continues to impact economic activities.

COVID-19 case numbers remain high in the United States, but the widespread vaccination of the population along with the benefits of measures such as stimulus payments to individuals and additional economic stimulus packages have spurred recovery in economic activities. Going forward, however, it will be important to monitor the impacts of the United States' efforts to detach its economic growth from China on the supply chains for semiconductors and other electronic components.

The slowdown in the European economy has been substantial as a result of intermittent lockdowns instituted in response to the rapid spread of variant COVID-19 viruses, and it is possible that wages and the job market will be slow to recover following protracted periods of unemployment among younger and other generations. Meanwhile, a trade agreement was reached between the United Kingdom and the European Union, but there is concern for the trade implications of the non-tariff trade barriers that will be put in place going forward.

China has successfully prevented subsequent COVID-19 outbreaks on a nationwide level through localized lockdowns and individual quarantines. In addition, exports from this country have been brisk centered on electronic products and components. Nevertheless, ongoing caution is warranted with regard to the risks present in this market, particularly those related to reduced creditability as cases of debt default increase and to the ever more intense conflicts with the United States.

Conditions pertaining to the COVID-19 pandemic vary by country in Southeast Asia. Accordingly, there is disparity in the speed of economic recovery between, for example, Vietnam, which has experienced positive growth, and Indonesia and the Philippines, where COVID-19 cases continue to increase. Countries across Southeast Asia have begun vaccinating their populations, but progress in these vaccinations also varies by country. Economic recovery could thus be slow in countries where a significant amount of time is required for the population to be vaccinated.

In Japan, there are signs of recovery in corporate activities driven by growth in exports and economic stimulus measures. Meanwhile, the rise in COVID-19 cases seen during the winter has placed additional pressure on the economy. There is thus a need to carefully monitor the contraction of domestic demand, which is seen being centered on face-to-face service industries, as the government institutes state of emergency declarations and other pandemic-fighting measures. Ongoing caution is also required with regard to the impacts of U.S.-China conflicts on the global economy.

Revenue	Revenue was down 8.7% year on year, to ¥1,602,485 million, due to lower revenue in the Automotive Division, as a result of decreases in sales units in overseas automobile operations; and in the Chemicals Division, a result of declines in the transaction volumes of plastic resins and falling methanol prices; and in the Retail & Lifestyle Business Division, as a result of lower lumber transactions.
Gross profit	Gross profit decreased ¥ 32,374 million year on year to ¥188,120 million, due to decrease in revenue in the Metals & Mineral Resources Division, influenced by a decline in coal prices and the sale of partial coal interests recorded at the end of the previous fiscal year, decreases in sales units in overseas automobile operations in the Automotive Division, and fall of methanol prices in the first quarter in the Chemicals Division.
Profit before tax	Profit before tax decreased ¥38,108 million year on year, to ¥37,420 million, as the declines in gross profit, share of profit of investments accounted for using the equity method and other income and expenses stemming from the sale of thermal coal interests in the previous year outweighed the benefits of the decreases in selling, general and administrative expenses.

### Consolidated Balance Sheet

Total assets on March 31, 2021, stood at ¥2,300,115 million, up ¥69,830 million from March 31, 2020. This increase was primarily a result of an increase in fixed assets due to the acquisition of an additional stake in a solar power generation business company and an increase in investments accounted for using the equity Method following new acquisitions in solar power generation business.

Total liabilities at March 31, 2021, amounted to ¥1,645,476 million, up ¥37,089 million from March 31, 2020, largely due to an increase in interest-bearing debt following new borrowing.

Total equity attributable to owners of the Company was ¥619,111 million on March 31, 2021, up ¥39,988 million from March 31, 2020. This increase was largely due to an increase in profit for the year (attributable to owners of the Company) and other components of equity resulted primarily from foreign exchange rate and stock price fluctuations.

Sojitz consequently, on March 31, 2021, the current ratio was 162.7%, the long-term debt ratio was 82.5%, and the equity ratio was 26.9%. This resulted in the Company's net debt equity ratio equaling 0.99 times at March 31, 2021.

(\* ) The equity ratio and net debt equity ratio are calculated based on total equity attributable to owners of the Company. Lease liabilities have been excluded from aforementioned total interest-bearing debt.

Under Medium-Term Management Plan 2020, the Sojitz Group continues to advance financial strategies in accordance with the basic policy of maintaining and enhancing the stability of its capital structure. Sojitz’s Value Creation Model

Review of Medium-Term Management Plan 2020

Under Medium-Term Management Plan 2020 ~ Commitment to Growth ~, Sojitz pursued steady growth by increasing the value of its assets while managing cash flows to continue conducting disciplined investments and loans (a total of ¥300.0 billion over the three-year period of the medium-term management plan). The Company achieved the targets put forth by the plan, namely a net debt equity ratio of 1.5 times or less, a positive three-year core cash flow, and a payout ratio of around 30%, indicating that operations have been advanced in a disciplined manner. Conversely, performance in the year ended March 31, 2021—the final year of the medium-term management plan—was heavily impacted by the global COVID-19 pandemic. As a result, the Company’s performance fell below the final-year targets of profit for the year (attributable to owners of the Company) of ¥75.0 billion and over, return on assets (ROA) of 3% or above, and return on equity (ROE) of 10% or above, with profit for the year (attributable to owners of the Company) of ¥27.0 billion, ROA of 1.2%, and ROE of 4.5%. Furthermore, three-year investments and loans only totaled ¥260.0 billion, placing the Company behind schedule in the final year of the plan, an outcome that was a result of delays in contract negotiations that resulted from the COVID-19 pandemic. Regardless, initiatives for building solid earnings foundations continue to move forward.

Medium-Term Management Plan 2023

Sojitz recently announced its vision of becoming a general trading company that constantly fosters new businesses and human resources in 2030. The Company will seek to realize this vision by fulfilling the mission of a general trading company: delivering goods and services where necessary. Pursuing higher levels of competitiveness and growth through an intensely market-oriented perspective, internal and external exchanges and co-creation, and swift action while transforming organizations and human resources as necessary, Sojitz will continue to create value.

Sustainability Management

ROE target of 10% or more has been set for this management indicator based on the Company's shareholders' equity costs of approximately 8%. Cash return on invested capital (CROIC), which represents the core operating cash flow generated from invested capital, has been adopted as an internal management indicator to guide efforts for accomplishing this target, and segment CROIC targets have been set to function as value creation guideline figures.

Medium-Term Management Plan 2023 calls for the steady improvement of corporate value through the execution of investments in growth fields and new fields, to be identified based on megatrends, totaling ¥330.0 billion over the three-year period of the plan (¥30.0 billion of which is to be directed toward non-financial investments in human resources and organizational reforms). These investments shall be conducted while practicing continued discipline in cash flow management.

Specifically, in order to meet market needs and address social issues in line with megatrends, we identified “infrastructure & healthcare,” “market-oriented initiatives in growth markets such as ASEAN and India,” and “materials & circular economy” as the three areas of focus, based on the concept of creating value under the strategy of pursuing “competitiveness” and “growth markets.” We will achieve growth by intensively allocating human resources and financial resources to these three areas.

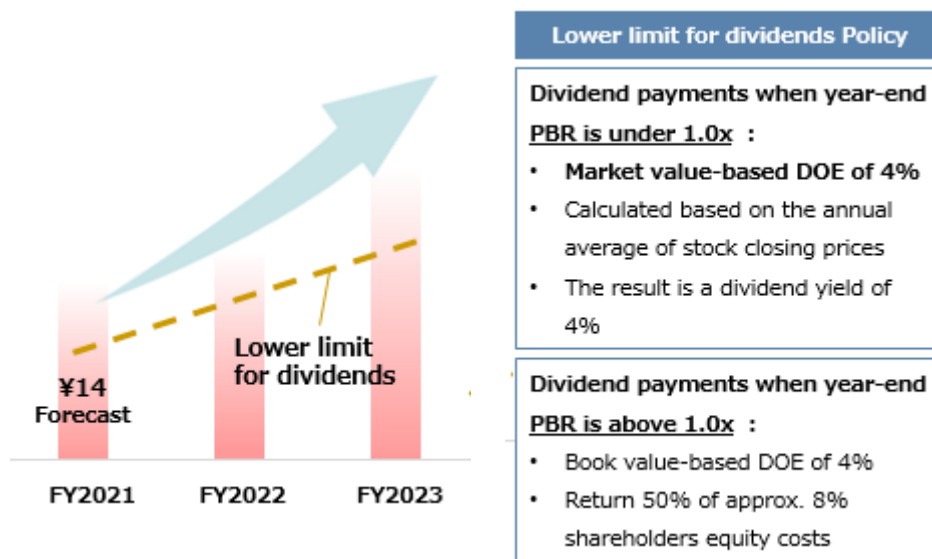

In addition to paying stable dividends to shareholders on an ongoing basis, Sojitz is also committed to enhancing shareholder value and improving its competitiveness by accumulating and effectively utilizing retained earnings. This endeavor has positioned as a basic policy. In accordance with this basic policy, the Company will target a consolidated payout ratio of around 30% under the Medium-Term Management Plan 2023.

Lower limit for dividends is set as representing market price-based DOE of 4% until PBR reaches 1.0 times and book value-based DOE of 4% after PBR reaches 1.0 times.

In other words, we are committed to paying effective dividend yield of 4% while PBR is below 1.0 times, and will pay dividends equivalent to half of our capital cost of approximately 8%, which we calculate when PBR reaches 1.0 times.

\*DOE: Dividend on Equity

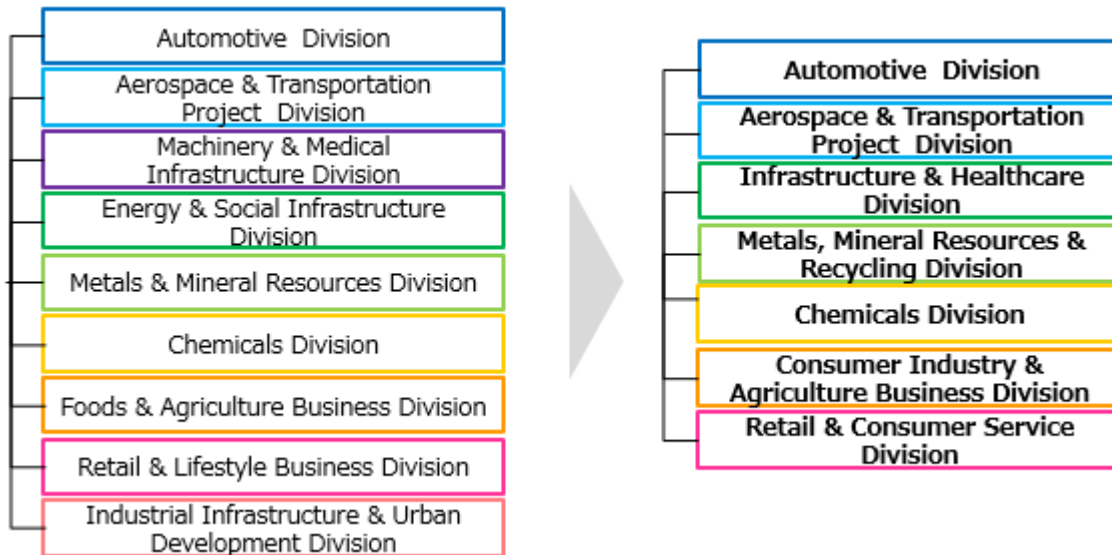

(Note) The dividend forecast for FY2021 does not take into account the effects implementing a share consolidation.

We are also addressing the theme of strengthening business in the Japanese retail market.

Initiatives for Sustainable Growth

1) Sustainability Initiative

To continue creating two types of value—value for Sojitz and value for society—well into the future, Sojitz Group has defined 6 Key Sustainability Issues (Materiality) to focus on in its business over the medium- to long- term. Based on these issues, we are striving to integrate solutions to global environmental and social issues into our corporate activities and build systems for such integration.

Sojitz has defined the realization of a decarbonized society and the respect for human rights within supply chain as focus areas where the Company can have a substantial influence based on global issues, such as those indicated by the Paris Agreement and the United Nations Sustainable Development Goals.

**Long-term vision for 2050, the “Sustainability Challenge”**

We will strive to create sustainable growth for both Sojitz and society by working to help achieve a decarbonized society through our business activities, and by responding to human rights issues, including those within our supply chains.

Medium-Term Management Plan 2023 also stipulates the broadening of ongoing human rights initiatives along with the reinforcement of businesses aimed at realizing a decarbonized, circular society and the infrastructure-related businesses and services that will be imperative to the transition toward such a society.

● Decarbonization Initiatives

Sojitz will accelerate reduction of CO<sub>2</sub> emissions from existing businesses of the Sojitz Group in order to increase its resilience in the decarbonized society of the future, and will approach this societal transition as a new opportunity in new businesses undertaken in the future, in order to build a broad business in the energy field and other fields. By doing so, Sojitz will increase various profit opportunities as “value for Sojitz”, in the process of realizing a decarbonized society as “value for society”.

As concrete steps to advance the above aims, in March 2021, we announced the following new policies and targets.

Sojitz Group’s Decarbonization Policies and Targets

Existing businesses	<b>Scope 1 + 2</b>	Reduce emissions by 60% by 2030; achieve net zero emissions by 2050*1 For Scope 2: Net-zero emissions by 2030 *2 *Coal-fired power generation : No current projects nor future projects planned

\*3 FY2018 serves as the base year, and targets are based on the book value of assets in coal interests.

\*4 Target deadline moved to earlier date from the previously announced goal of reducing thermal coal interests to half or less by 2030 announced in May 2019.

These goals are based on our current outlook for the future. Sojitz will flexibly revise them according to changing conditions of societal trends and technological innovations.

Sojitz announced its support for the final recommendations of TCFD in August 2018, and it will endeavor to disclose its progress toward the above goals in accordance with the final recommendations of TCFD.

- Initiatives made for the respect of human rights within supply chains

The Sojitz Group engages in various businesses globally, and has an extensive supply chain stretching around the world. Sojitz Group aims to ensure respect for human rights in all countries and regions that are involved in its business.

In order to achieve this goal, Sojitz is promoting initiatives in accordance with the UN’s “Guiding Principles on Business and Human Rights.”

<Human rights support framework as defined by the UN Guiding Principles on Business and Human Rights>

#### Establish and share policies

The Sojitz Group has defined human rights as one of its Key Sustainability Issues (Materiality).

Furthermore, our “Sustainability Challenge” also includes “initiatives respecting human rights, including our supply chains.”

Furthermore, the Sojitz Group distributes and shares handbooks explaining these policies to group companies and suppliers, and will continuously strive toward raising full awareness in the future.

#### Risk assessment

The Business & Human Rights Resource Centre, a British NGO, maintains a database with examples of environmental and human rights risks. Using this, we identify sectors in which general environmental and human rights risks could easily occur and then check any applicable circumstances in our supply chain, as well as the status of initiatives related to risks with regard to these areas. The results of these checks are also supervised by external experts.

#### Improvements/remedial action

The Sojitz Group has hotlines both inside and outside its companies, and has built a system to directly receive information from victims.

We will also raise adequate awareness of issues within the Sojitz Group, and as necessary, conduct educational activities for suppliers.

#### Disclose results

We will continue to actively disclose the results of the Group’s activities.

#### 2) Fostering Diverse and Autonomous Human Resources

Sojitz has continued to implement human resource initiatives aimed at fostering human resources adept at creating value by transforming changes into opportunities.

In the Medium-Term Management Plan 2023, we will implement various human resources initiatives to turn diversity into a competitive advantage in order to develop an organization consisting of individuals with diversity and autonomy under the theme of “Transformation of Diversity into Competitiveness .”

To begin with, we will accelerate the initiatives for empowering female employees and otherwise promoting diversity implemented thus far. The Company will also continue and build upon efforts for utilizing teleworking, accommodating other flexible workstyles, and developing workplace environments that are conducive to diverse workstyles.

In addition, Companywide frameworks for encouraging ambition will be expanded. One such framework is the Hassojitz Project,\* a project launched in 2019 to foster human resources with business operation capabilities, innovative and entrepreneurial ideas, and an ability to involve others and to complete tasks. Furthermore, employees will be provided with an increased range of opportunities to feel their own personal growth, including dispatches of junior employees to overseas assignments and long-term trainee programs. Sojitz will continue to help employees realize their desired career path in an effort to link individual growth to the growth of organizations and subsequently the Company and thereby drive the creation of new businesses.

\* Project for considering new businesses and business models based on anticipated future social trends and changes

- Promoting diversity

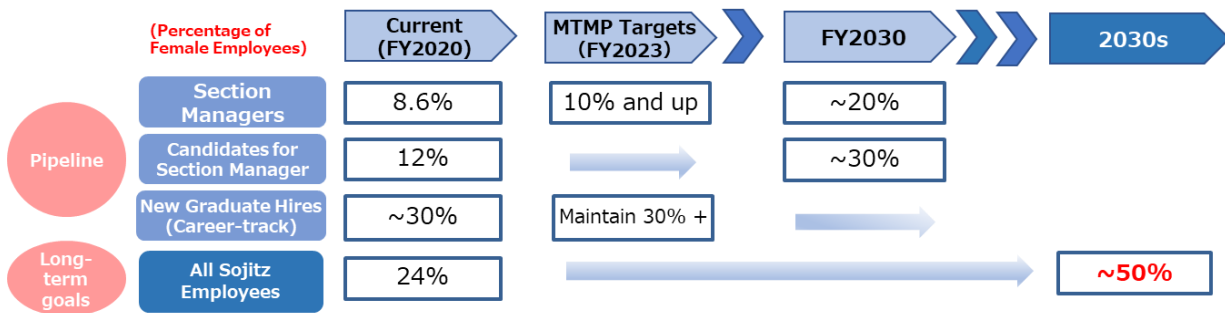

Sojitz seeks to utilize the diversity of its human resources to respond to the rapidly changing market environment, and transform itself into an organization that can always create new businesses with great speed. In order to do so, Sojitz has been actively and continuously hiring and appointing diverse human resources, including women, foreign nationals, and mid-career hires with diverse work experience. We have also been promoting initiatives that include creating a work environment which makes full use of the characteristics and abilities of each employee, as well as educating middle managers.

In the Medium-Term Management Plan 2023, in addition to initiatives undertaken so far, we will encourage diverse career paths and work styles, and implement human resource measures that utilize the diversity of our employees into the creation of new businesses, and in the decision-making of our organizations.

In recent years, Sojitz has actively promoted participation by women in the workplace, and we have been selected as a Nadeshiko Brand company for five years running. In addition to raising the ratio of women in various categories, we have also raised the number of female employees stationed overseas, female general managers and female section managers, thereby expanding the venues for participation by female employees. In April 2021, the company appointed its first female Executive Officer through a process of internal promotion.

In the Medium-Term Management Plan 2023, we aim to raise the ratio of female employees to approximately 50% by the end of the 2030s, and in the medium- to long-term, we will develop an environment in which women can fully participate as a matter of course. While supporting self-directed growth of employees, we will continuously work to build a pipeline, accumulate experience, and raise career awareness in each generation, and increase the number of female employees involved in decision-making for management in the future.

● Developing a work environment that realizes flexible and diverse work styles

In March 2018, Sojitz established the Sojitz Group health management charter “Sojitz Healthy Value,” and is working to maintain and improve the health of both employees and their families. In March 2021, Sojitz Corporation was certified for the third consecutive year as the “Certified Health & Productivity Management Organization 2021 (White 500),” a commemoration for companies that practice excellent health management, sponsored by the Ministry of Economy, Trade and Industry, as well as Nippon Kenko Kaigi. In FY2020, Sojitz was also certified as a “2021 Health & Productivity Stock,” as a company strategically addressing health management from a business management perspective.

Additionally, as part of work style reform, we have introduced a superflex system that does not have core work hours and a telecommuting system, in order to promote flexible work styles. Under the influence of the COVID-19 pandemic, we have given top priority to protecting the health of our employees and their families. By using a balanced mix of telecommuting and commuting to the office, we are building an environment where employees can avoid risk of infection while getting their work done. On October 30, 2020, in recognition of these initiatives, Sojitz was selected as one of the “Top Hundred Telework Pioneers” in FY2020 by the Ministry of Internal Affairs and Communications. We will continue to listen to the opinions of employees as we seek to create new work styles and a highly flexible work environment.

● Initiatives to realize diverse career paths and work styles

Amid significant changes in the environment, such as labor shortages, changes in working values, and the popularization of new work styles including concurrent positions and side jobs, Sojitz is promoting new initiatives to enable employees working at our company to maintain strong motivation and realize diverse career paths and work styles.

- Job-based new company

In March 2021, Sojitz established a new job-based employment company, “Sojitz Professional Share Corporation” as a career platform that supports diverse career and life plans for employees who are age 35 or older. Operations are planned to start in July 2021, and the company will offer support for each employee to continue to be active on new career paths, by enabling them to work up until the age of 70, without restrictions such as working hours or work locations, and to start side jobs or become entrepreneurs.

- Support for entrepreneurship and independent businesses

In order to support employees who aim to achieve independence and become entrepreneurs, we have introduced support system for entrepreneurship and independent businesses that provides Sojitz's resources (funds, information, and networks). We will aim to secure and train human resources who actively undertake new challenges with their entrepreneurial spirit, and to transform our corporate culture by supporting career paths of employees including support for independence and starting a new business.

- Sojitz Alumni

In response to a proposal made by former Sojitz employees to establish "Sojitz Alumni," we officially recognize and support operations of Sojitz Alumni activities. We will utilize Sojitz Alumni as a platform to build and expand a human network consisting of Sojitz officers and employees as well as former employees of Sojitz, and promote further expansion of Sojitz's business domains.

Through the gradual formation of Sojitz Group, we will promote creation of new business opportunities that are not bound by current business domains and open innovation.

● Initiatives to train future leaders

We are working to maximize capabilities of individual human resources through our human resources system and training system. Sojitz has a trainee system including dispatches to overseas assignment for a period of 3 months to over a year for all young employees, who will be responsible for the future of the company. In FY2020, we started a new initiative to assign employees as trainees to operating companies in fields other than that of the division they belong to, increasing their opportunities to experience business operations and decision-making, and broadening their horizons. We are also providing next-generation executive management with opportunities for executive coaching and workshops with other companies, in order to lead transformations in strategic thinking and behavior with an eye towards the future. In this manner, we will systematically train future executive management by providing a wide range of training opportunities, for everyone from our young employees to middle managers.

Upper limit of the number of Sojitz shares subject to Delivery to Directors	The upper limit of points to be granted to Directors shall be 3 million points (equivalent to 3 million shares) for three fiscal years.

The total amount of the aforementioned share remuneration represents the amount reported as expenses for fiscal 2020 associated with the share delivery points regarding the System (Board Incentive Plan (BIP) Trust). Basic remuneration (share) refers to the "fixed portion" with no link to business performance within the remuneration to be paid under the System.

### ● Outline of the remuneration system for company officers (as of March 31, 2021)

Sojitz's basic policy is to establish a remuneration system for company officers that is closely linked to Sojitz's business performance and will ensure transparency and objectivity for the purpose of encouraging Directors to contribute to the improvement in Sojitz's performance and corporate value over the medium-to-long term.

Under the aforementioned basic policy, the policy for determining remuneration, etc. of individual Directors for

fiscal 2020 has been formulated, as summarized below. This policy has been decided by resolution of the Board of Directors through deliberations at the Remuneration Committee, which is an advisory body of the Board of Directors and is chaired by an Outside Director and whose majority is composed of Outside Directors, with reference to benchmark data such as the remuneration level at other companies in the same industry and the business performance of Sojitz.

- Policy for the remuneration for Directors (excluding Outside Directors; hereinafter, the same shall apply)

The remuneration for Directors consists of “basic remuneration (monetary)” and “basic remuneration (share),” both of which form the fixed portion not linked to business performance, as well as “performance-linked remuneration (monetary)” and “performance-linked remuneration (share).” Basic remuneration shall consist of granting of monetary remuneration and a certain number of share delivery points and be determined by rank based on duties of each Director. Performance-linked remuneration shall consist of granting of monetary remuneration and share delivery points both of which are linked to the amount of profit for the year attributable to owners of Sojitz (hereinafter referred to as “Consolidated Net Profit for the Year”). It has been decided that Consolidated Net Profit for the Year announced as consolidated earnings forecast should be adopted as an indicator for performance-linked remuneration, with a view to establishing a remuneration system for company officers that is closely linked to Sojitz’s business performance and will ensure transparency and objectivity.

For the composition ratio, the system is designed to make performance-linked remuneration account for approximately 30% of basic remuneration if the Consolidated Net Profit for the Year for fiscal 2020 reaches the amount of the targeted Consolidated Net Profit for the Year. Meanwhile, as for basic remuneration, the ratio of basic monetary remuneration against basic share remuneration is designed to become approximately 9 to 1, whereas performance-linked monetary remuneration against performance-linked share remuneration is designed to become 2 to 1.

<Breakdown of remuneration for Directors>

<Content of basic remuneration (monetary)>

Fixed amount determined by rank based on job responsibilities of each Director

<Calculation method of basic remuneration (share)>

Fixed share delivery points = (Basic share remuneration by rank) (Note 1) ÷ (Monthly average closing price of Sojitz shares at the Tokyo Stock Exchange in July 2018) (rounded down to the nearest whole number)

<Calculation method of performance-linked remuneration (monetary)>

Total performance-linked monetary remuneration = ((Consolidated Net Profit for the Year in each fiscal year) (Note 2) × β% (Note 3) × (Aggregate sum of rank-based points for all Directors eligible) ÷ 539) (any fraction less than ¥1 shall be rounded down)

Individual performance-linked monetary remuneration = Total performance-linked monetary remuneration × ((Rank-based points for each Director) (Note 4) ÷ (Aggregate sum of rank-based points for all Directors eligible)) (any fraction less than ¥1,000 shall be rounded down)

<Calculation method of performance-linked remuneration (share)>

Total performance-linked share remuneration = ((Consolidated Net Profit for the Year in each fiscal year) (Note 2)  $\times$   $\alpha$ % (Note 3)  $\times$  (Aggregate sum of rank-based points for all Directors eligible)  $\div$  539) (any fraction less than ¥1 shall be rounded down)

Individual performance-linked share remuneration = (Total amount of share remuneration)  $\times$  ((Rank-based points for each Director) (Note 4)  $\div$  (Aggregate sum of rank-based points for all Directors eligible)) (any fraction less than ¥1,000 shall be rounded down)

Performance-linked share delivery points = (Individual performance-linked share remuneration)  $\div$  (Monthly average closing price of Sojitz shares at the Tokyo Stock Exchange in July 2018) (rounded down to the nearest whole number)

(Note 1) Fixed amount determined based on the rank of each Director

(Note 2) The targeted Consolidated Net Profit for the Year for fiscal 2020 shall be ¥75.0 billion, since profit of ¥75.0 billion or above was targeted in the final fiscal year of Medium-Term Management Plan 2020. However actual results turned out to be ¥27.0 billion.

(Note 3) The value of coefficients  $\alpha$  and  $\beta$  shall be adjusted according to the targeted Consolidated Net Profit for the Year in each fiscal year, and shall be disclosed along with such targeted Consolidated Net Profit for the Year after being resolved by the Board of Directors. Note that for fiscal 2020, the value of  $\alpha$  and  $\beta$  shall be set to 0.065 and 0.130, respectively.

(Note 4) Rank-based points for each Director

	Executive rank	Rank-based points
Directors	Director and Chairman	86
	Director and Vice Chairman	73
	Director and President	100
	Director and Executive Vice President	73
	Director and Senior Managing Executive Officer	67

The upper limit of the individual monetary remuneration for, and the performance-linked share delivery points that are granted to, the respective Directors shall be as follows:

Executive rank	Individual monetary remuneration (millions of yen)	Performance-linked share delivery points (points)
Director and Chairman	37	54,000
Director and Vice Chairman	31	46,000
Director and President	43	63,000
Director and Executive Vice President	31	46,000
Director and Senior Managing Executive Officer	28	42,000

<Timing and conditions of payment of remuneration>

Basic remuneration (monetary) shall be paid on a monthly basis, while performance-linked remuneration (monetary) shall be paid once a year at a certain time of the year.

For share remuneration, after retirement of Directors, based on the confirmation that they meet the beneficiary

requirements, they shall receive delivery of the number of Sojitz shares equivalent to the accumulated share delivery points calculated at the rate of one Sojitz share per share delivery point. The beneficiary requirements shall be determined as necessary to achieve the purpose of the share remuneration system.

For Directors who retired (or died) or became a non-resident of Japan during the applicable period, the accumulated points at that point in time shall be deemed as the share delivery points.

In the event of an increase or decrease in the number of Sojitz shares held in the trust due to share split, gratis allotment of shares or share consolidation, Sojitz shall adjust the number of the Sojitz shares subject to delivery for each point, depending on the rate of such increase or decrease.

- Policy for the remuneration for Outside Directors

In light of the job responsibilities they are expected to perform, performance-linked remuneration is not introduced for Outside Directors from the viewpoint of ensuring independence. Outside Directors are, therefore, subject only to basic remuneration (monetary), and the remuneration therefor is decided by resolution of the Board of Directors through deliberations at the Remuneration Committee.

- Method for determining individual remuneration, etc. for Directors

Under Sojitz's policy, individual remuneration, etc. for Directors shall be decided by the Board of Directors through deliberations and reports at the Remuneration Committee. This procedure was duly followed in fiscal 2020 to determine the amounts of remuneration for individual Directors in accordance with the regulations established by resolution of the Board of Directors based on the aforementioned policy, and details of such remuneration were found to be in line with the policy.

- Policy for the remuneration for Audit & Supervisory Board Members

Performance-linked remuneration is not introduced for Audit & Supervisory Board Members in view of their role in auditing Directors' execution of their duties. Audit & Supervisory Board Members are, therefore, subject only to basic remuneration (monetary), and individual remuneration therefor is determined through consultations by the Audit & Supervisory Board Members.

**Opinion**

Pursuant to Article 444, Paragraph 4 of the Companies Act, we have audited the accompanying consolidated financial statements, which comprise the consolidated statement of financial position, the consolidated statement of profit or loss, the consolidated statement of changes in equity and the notes to the consolidated financial statements of Sojitz Corporation (the "Company") for the fiscal year from April 1, 2020 through March 31, 2021.

In our opinion, the above consolidated financial statements, prepared with the omission of some disclosure items required under the International Financial Reporting Standards in accordance with the provisions of the latter part of Article 120, Paragraph 1 of the Regulation on Corporate Accounting, present fairly, in all material respects, the financial position and results of operations of the corporate group, which consists of the Company and its consolidated subsidiaries, for the period covered by the consolidated financial statements.

**Basis for the Opinion**

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibility under the auditing standards is stated in "Auditor's Responsibility for the Audit of the Consolidated Financial Statements." We are independent of the Company and its consolidated subsidiaries in accordance with the provisions related to professional ethics in Japan, and are fulfilling other ethical responsibilities as an auditor. We believe that we have obtained sufficient and appropriate audit evidence to provide a basis for our audit opinion.

**Responsibilities of Management, Audit & Supervisory Board Members and the Audit & Supervisory Board for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the provisions of the latter part of Article 120, Paragraph 1 of the Regulation on Corporate Accounting which allows companies to prepare consolidated financial statements with the omission of some disclosure items required under International Financial Reporting Standards, and for designing and operating such internal control as management determines is necessary to enable the preparation and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing whether it is appropriate to prepare the consolidated financial statements in accordance with the premise of a going concern, and for disclosing matters relating to going concern when it is required to do so in accordance with the provisions of the latter part of Article 120, Paragraph 1 of the Regulation on Corporate Accounting which allows companies to prepare consolidated financial statements with the omission of some disclosure items required under International Financial Reporting Standards.

Audit & Supervisory Board Members and the Audit & Supervisory Board are responsible for monitoring the execution of Directors' duties related to designing and operating the financial reporting process.

#### **Auditor's Responsibility for the Audit of the Consolidated Financial Statements**

Our responsibility is to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to express an opinion on the consolidated financial statements from an independent standpoint in an audit report, based on our audit. Misstatements can occur as a result of fraud or error, and are deemed material if they can be reasonably expected to, either individually or collectively, influence the decisions of users taken on the basis of the consolidated financial statements.

We make professional judgment in the audit process in accordance with auditing standards generally accepted in Japan, and perform the following while maintaining professional skepticism.

- Identify and assess the risks of material misstatement, whether due to fraud or error. Design and implement audit procedures to address the risks of material misstatement. The audit procedures shall be selected and applied as determined by the auditor. In addition, sufficient and appropriate audit evidence shall be obtained to provide a basis for the audit opinion.
- In making those risk assessments, the auditor considers internal control relevant to the entity's audit in order to design audit procedures that are appropriate in the circumstances, although the purpose of the audit of the consolidated financial statements is not to express an opinion on the effectiveness of the entity's internal control.
- Assess the appropriateness of accounting policies adopted by management and the method of their application, as well as the reasonableness of accounting estimates made by management and the adequacy of related notes.
- Determine whether it is appropriate for management to prepare the consolidated financial statements on the premise of a going concern and, based on the audit evidence obtained, determine whether there is a significant uncertainty in regard to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If there is a significant uncertainty concerning the premise of a going concern, the auditor is required to call attention to the notes to the consolidated financial statements in the audit report, or if the notes to the consolidated financial statements pertaining to the significant uncertainty are inappropriate, issue a modified opinion on the consolidated financial statements. While the conclusions of the auditor are based on the audit evidence obtained up to the date of the audit report, depending on future events or conditions, an entity may be unable to continue as a going concern.
- Besides assessing whether the presentation of and notes to the consolidated financial statements are in accordance with the provisions of the latter part of Article 120, Paragraph 1 of the Regulation on Corporate Accounting which allows companies to prepare consolidated financial statements with the omission of some disclosure items required under International Financial Reporting Standards, assess the presentation, structure, and content of the consolidated financial statements including related notes, and whether the consolidated financial statements fairly present the transactions and accounting events on which they are based.

- Obtain sufficient and appropriate audit evidence regarding the financial information of the Company and its consolidated subsidiaries in order to express an opinion on the consolidated financial statements. The auditor is responsible for instructing, supervising, and implementing the audit of the consolidated financial statements, and is solely responsible for the audit opinion.

The auditor reports to Audit & Supervisory Board Members and the Audit & Supervisory Board regarding the scope and timing of implementation of the planned audit, material audit findings including material weaknesses in internal control identified in the course of the audit, and other matters required under the auditing standards.

The auditor reports to Audit & Supervisory Board Members and the Audit & Supervisory Board regarding the observance of provisions related to professional ethics in Japan as well as matters that are reasonably considered to have an impact on the auditor's independence and any safeguards that are in place to reduce or eliminate obstacles.

### **Audit Report**

With respect to the Directors' performance of their duties during the 18th fiscal year (from April 1, 2020 to March 31, 2021), the Audit & Supervisory Board has prepared this audit report after deliberations based on the audit reports prepared by each Audit & Supervisory Board Member, and hereby report as follows:

#### **1. Methods and contents of audit by Audit & Supervisory Board Members and the Audit & Supervisory Board**

- (1) The Audit & Supervisory Board has established the audit policies, assignment of duties, etc. and received a report from each Audit & Supervisory Board Member regarding the status of implementation of their audits and results thereof. In addition, the Audit & Supervisory Board has received reports from the Directors, etc. and the accounting auditor regarding the status of performance of their duties, and requested explanations as necessary.
- (2) In conformity with the Audit & Supervisory Board Members auditing standards established by the Audit & Supervisory Board, and in accordance with the audit policies, audit plans, and assignment of duties, etc., each Audit & Supervisory Board Member endeavored to facilitate a mutual understanding with the Directors, the internal audit division and other employees, etc., endeavored to collect information and maintain and improve the audit environment, and performed audits using the following methods.
  - (i) Each Audit & Supervisory Board Member has attended the meetings of the Board of Directors and other important meetings, received reports on the status of performance of duties from the Directors and other employees and requested explanations as necessary, examined important approval/decision documents, and inspected the status of the corporate affairs and assets at the head office and other principal business locations. With respect to the subsidiaries, each Audit & Supervisory Board Member endeavored to facilitate a mutual understanding and exchanged information with the Directors and Audit & Supervisory Board Members, etc. of each subsidiary and received from subsidiaries reports on their respective businesses as necessary.
  - (ii) Each Audit & Supervisory Board Member regularly received reports on the status of the system and performance from the Directors and other employees and, as necessary, requested explanations for and expressed opinions on the status of the contents of the Board of Directors' resolutions regarding the development and maintenance of the system to ensure that the Directors' performance of their duties described in the business report complied with all laws, regulations and the Articles of Incorporation of Sojitz and other systems that are set forth in Article 100, paragraphs 1 and 3 of the Ordinance for Enforcement of the Companies Act of Japan as being necessary for ensuring the appropriateness of the corporate affairs of the corporate group consisting of a joint stock company (kabushiki kaisha) and its subsidiaries, and the systems (internal control systems) based on such resolutions.
  - (iii) Each Audit & Supervisory Board Member monitored and verified whether the accounting auditor maintained its independence and properly conducted its audit, received a report from the accounting auditor on the status of its performance of duties, and requested explanations as necessary. Each Audit & Supervisory Board Member was notified by the accounting auditor that it had established a "system to ensure that the performance of the duties of the accounting auditor was properly conducted" (the matters listed in the items of Article 131 of the Rules of Corporate Accounting) in accordance with, among other things, the "Quality Control Standards for audit" (Business Accounting Council, October 28, 2005), and requested explanations as necessary. For major audit considerations, we discussed these matters with the accounting auditor, received reports on the status of audit implementation, and requested explanations as necessary.

Based on the above-described methods, each Audit & Supervisory Board Member examined the business report and the supplementary schedules thereto, the non-consolidated financial statements (non-consolidated balance sheet, non-consolidated statement of income, non-consolidated statement of changes in net assets, and notes to the non-consolidated financial statements) and the supplementary schedules thereto, as well as the consolidated financial statements (consolidated statement of financial position, consolidated statements of profit or loss, consolidated statements of changes in equity, and notes to the consolidated financial statements), for the fiscal year under consideration.
